

Bilateral Agreement for the Pannónia Programme

I. General Information

This Bilateral Agreement for the Pannónia Programme (hereinafter: Agreement) signals the profound determination of the partnering higher education institutions and other organisations (hereinafter: Institutions) to cooperate for the exchange of students and/or staff in the context of the Pannónia Programme (hereinafter: Programme).

The Programme is funded by the Government of Hungary and is a mobility programme for the higher education sector, to strengthen the international relations of the Hungarian higher education sector. The Programme provides a framework for higher education mobility inside and outside of Europe as well.

The Programme provides mobility opportunities for students, teachers, researchers, and staff of the Institutions with two main pillars. The first one is a general mobility scholarship for long- and short-term mobility for students, teachers, researchers, and staff. The second one is a programme for excellence and is open to students only for long-term and blended mobility options.¹

The Agreement applies to all faculties and departments of the Institutions.

The purpose of the Agreement is to provide a framework for further cooperation in mobility and exchange between the Institutions.
